

February Range Improvement and Repair Party

Jerry McIntyre, Range Chair, 619-977-8802

That's right fellow members you read it "Repair". The rains have played havoc on our range and it desperately needs our attention. As some of you know lead mining is finally going to happen at our club and we've negotiated a 60/40 split with the lead reclamation team. Unfortunately the rains have been washing our future profits down into the deep trenches caused by the storms, so we literally have to "Get the lead out"!

Here are just a few of the things that need attention:

1. Sweep, shovel, dig our lead out of those deep trenches and move it to areas where it can be recovered by the lead miners. Dexter will be leading this effort so if you have a trenching shovel, hand spade, corn broom or anything else you can think of please bring it.
2. Jerry Hartman and Don Shane may need some help recovering the rifle range bench rests (they'll probably get plenty of help if there are showers that day).
3. We will be continuing our ADA improvements at the camp ground restroom.
4. We always need 4 or 5 people for sporting clays set up...But no more than 4 or 5. Often we have seen members standing around watching Jimmy and Robert do most of the work!
5. **FINALLY!** We have a shotgun wad pick up tool that we purchased at the shot show to make this effort beyond easy, and the rifle range is inundated with wads from our shotgun events. Shotgun shooters please help with this effort! If we can't pick up the broken clays on the rifle range with the tractor we will be renting (weather permitting), they'll need to be raked.
6. We have trash all over the place from the rain and the winds that need to be policed.
7. Once again we will have a couple of RSO's so after the range repair party we will have open rifle and pistol shooting so bring a gun and get a few clicks in after the work party.
8. Our resident chef and club president will be cooking for us so you know lunch will be fantastic. So come on out and help with our range that desperately needs attention, have a great lunch and get a little shooting time in.
